OPERATOR'S MANUAL

Twin Rear Bagger — Model No. 19A70043OEM

A WARNING

READ AND FOLLOW ALL SAFETY RULES AND INSTRUCTIONS IN THIS MANUAL BEFORE ATTEMPTING TO OPERATE THIS MACHINE. FAILURE TO COMPLY WITH THESE INSTRUCTIONS MAY RESULT IN PERSONAL INJURY.

MTD LLC, P.O. BOX 361131 CLEVELAND, OHIO 44136-0019

Printed In USA

To The Owner

Thank you for purchasing a bagging attachment manufactured by MTD LLC. It was carefully engineered to provide excellent performance when properly operated and maintained.

Please read this entire manual prior to operating the equipment. It instructs you how to safely and easily set up, operate and maintain this attachment. Please be sure that you, and any other persons who will operate the machine, carefully follow the recommended safety practices at all times. Failure to do so could result in personal injury or property damage.

All information in this manual is relative to the most recent product information available at the time of printing. Review this manual frequently to familiarize yourself with the attachment, its features and operation. Please be aware that this Operator's Manual may cover a range of product specifications for various models. Characteristics and features discussed and/or illustrated in this manual may not be applicable to all models. MTD LLC reserves the right to change product specifications, designs and equipment without notice and without incurring obligation. If you have any problems or questions concerning this attachment, phone your local authorized MTD service dealer or contact us directly. MTD's Customer Support telephone numbers, website address and mailing address can be found on this page. We want to ensure your complete satisfaction at all times.

Throughout this manual, all references to *right* and *left* side of the machine are observed from the operating position

Record Product Information

Before setting up and operating your new equipment, please locate the model plate on the equipment and record the information in the provided area to the right. You can locate the model plate by looking at the topside of the bagger cover. This information will be necessary, should you seek technical support via our web site, Customer Support Department, or with a local authorized service dealer.

Customer Support

Please do NOT return the machine to the retailer or dealer without first contacting our Customer Support Department.

If you have difficulty assembling this product or have any questions regarding the controls, operation, or maintenance of this machine, you can seek help from the experts. Choose from the options below:

- ◊ Visit us on the web at www.mtdproducts.com
- ◊ Call a Customer Support Representative at (800) 800-7310 or (330) 220-4683
- Write us at MTD LLC P.O. Box 361131 Cleveland, OH 44136-0019

Important Safe Operation Practices

WARNING! This symbol points out important safety instructions which, if not followed, could endanger the personal safety and/or property of yourself and others. Read and follow all instructions in this manual before attempting to operate this machine. Failure to comply with these instructions may result in personal injury. When you see this symbol. **HEED ITS WARNING!**

DANGER! This attachment was built to be used according to the safe operation practices in this manual. Carelessness or error on the part of the operator can result in serious injury. Mowers are capable of amputating hands and feet and throwing objects. Failure to observe the following safety instructions as well as the instructions provided with your mower, could result in serious injury or death.

General Operation

- 1. Read, understand, and follow all instructions on your equipment and in their manuals before attempting to assemble and operate. Keep this manual in a safe place for future and regular reference and for ordering replacement parts.
- 2. To help avoid blade contact or a thrown object injury, keep bystanders, helpers, children and pets at least 75 feet from the mower while it is in operation. Stop machine if anyone enters the area.
- 3. Thoroughly inspect the area where the equipment is to be used. Remove all stones, sticks, wire, bones, toys, and other foreign objects which could be picked up and thrown by the blade(s). Thrown objects can cause serious personal injury.
- 4. Always wear safety glasses or safety goggles during operation and while performing an adjustment or repair to protect your eyes. Thrown objects which ricochet can cause serious injury to the eyes.
- 5. Do not operate the mower without the discharge cover or entire grass catcher in its proper place. A missing or damaged discharge cover or grass bag attachment component may result in thrown objects or blade contact injuries.
- 6. Do not put hands or feet near rotating parts or under the cutting deck. Contact with the blade(s) can amputate hands and feet.
- 7. Shut off mower's engine and wait for blades to come to a complete stop before unclogging mower's discharge opening or bagger parts.
- 8. Slow down before turning. Operate the machine smoothly. Avoid erratic operation and excessive speed. Be aware that a grass catcher attachment can affect the handling characteristics of your mower.

- 9. Disengage blade(s), set parking brake, stop engine and wait until the blade(s) come to a complete stop before opening bagger attachment's top cover, removing grass catcher, emptying grass, unclogging chute, removing any grass or debris, or making any adjustments.
- 10. Never leave a running machine unattended. Always turn off blade(s), place transmission in neutral, set parking brake, stop engine and remove key before dismounting.
- 11. Your machine is designed to cut normal residential grass of a height no more than 10". Do not attempt to mow through unusually tall, dry grass (e.g., pasture) or piles of dry leaves. Dry grass or leaves may contact the engine exhaust and/ or build up on the mower deck presenting a potential fire hazard.
- 12. If situations occur which are not covered in this manual, use care and good judgment. Contact your customer service representative for assistance.

Slope Operation

Slopes are a major factor related to loss of control and tip-over accidents which can result in severe injury or death. Attachments can also affect the stability of the machine. All slopes require extra caution.

For your safety, use the slope gauge included as part of this manual to estimate the angle of slopes before operating this machine on a sloped or hilly area. If the slope is greater than 10 degrees as shown on the slope gauge, do not operate the mower with the grass bag attachment installed on that area or serious injury could result.

Do:

- 1. Mow up and down slopes, not across. Exercise extreme caution when changing direction on slopes.
- 2. Watch for holes, ruts, bumps, rocks, or other hidden objects. Uneven terrain could overturn the machine. Tall grass can hide obstacles.

- 3. Use slow speed. Choose a low enough speed setting so that you will not have to stop or shift while on the slope. Tires may lose traction on slopes even though the brakes are functioning properly. Always keep machine in gear when going down slopes to take advantage of engine braking action.
- 4. Follow the manufacturer's recommendations for wheel weights or counterweights to improve stability.
- 5. Keep all movement on the slopes slow and gradual. Do not make sudden changes in speed or direction. Rapid engagement or braking could cause the front of the machine to lift and rapidly flip over backwards which could cause serious injury.
- 6. Avoid starting or stopping on a slope. If tires lose traction, disengage the blade(s) and proceed slowly straight down the slope.

Do Not:

- 1. Do not turn on slopes unless necessary; then, turn slowly and gradually downhill, if possible.
- 2. Do not mow near drop-offs, ditches or embankments. The mower could suddenly turn over if a wheel is over the edge of a cliff, ditch, or if an edge caves in.
- 3. Do not try to stabilize the machine by putting your foot on the ground.
- 4. Do not use a grass catcher on steep slopes.
- 5. Do not mow on wet grass. Reduced traction could cause sliding.

General Service

- 1. Before cleaning, repairing, or inspecting, make certain the blade(s) and all moving parts have stopped. Disconnect the spark plug wire and ground against the engine to prevent unintended starting.
- 2. Keep all nuts, bolts, and screws tight to be sure the equipment is in safe working condition.
- 3. Never tamper with your mower's safety interlock system or other safety devices. Check their proper operation regularly.
- 4. Never attempt to make adjustments or repairs while the mower's engine is running.
- 5. Grass catcher components and the discharge cover are subject to wear and damage which could expose moving parts or allow objects to be thrown. For safety protection, frequently check components and replace immediately with original equipment manufacturer's (O.E.M.) parts only, listed in this manual. Use of parts which do not meet the original equipment specifications may lead to improper performance and compromise safety!
- 6. Maintain or replace safety and instruction labels, as necessary.

Safety Symbols

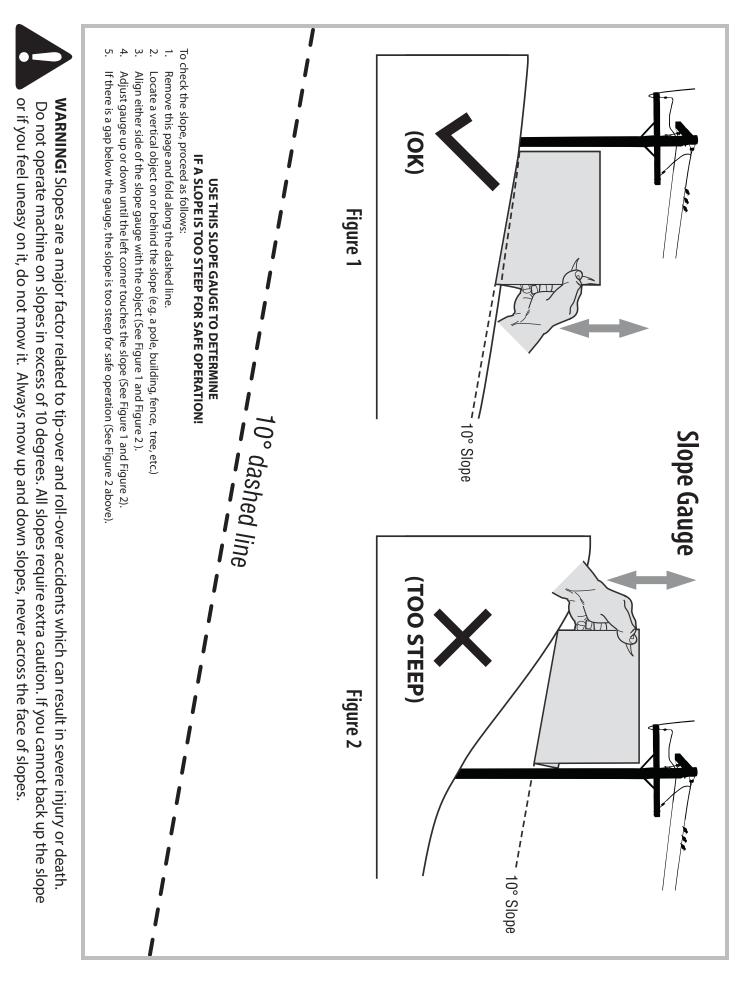

This table depicts and describes safety symbols that may appear on this product. Read, understand, and follow all instructions on the machine before attempting to assemble and operate.

Symbol	Description
	READ THE OPERATOR'S MANUAL(S) Read, understand, and follow all instructions in the manual(s) before attempting to assemble and operate
	STOP Turn off the engine before opening the bagger cover.

WARNING! Your Responsibility—Restrict the use of this power machine to persons who read, understand and follow the warnings and instructions in this manual and on the machine.

SAVE THESE INSTRUCTIONS!

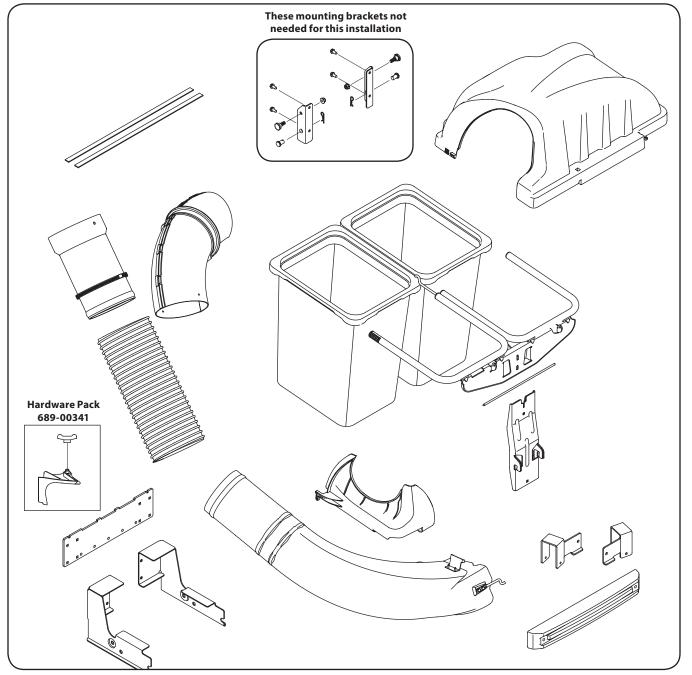

Contents of Carton

Before beginning installation, remove all parts from the carton to make sure everything is present. Carton contents are listed below and shown in Fig. 3-1. The four hardware packs included in this kit are detailed on this and the following page.

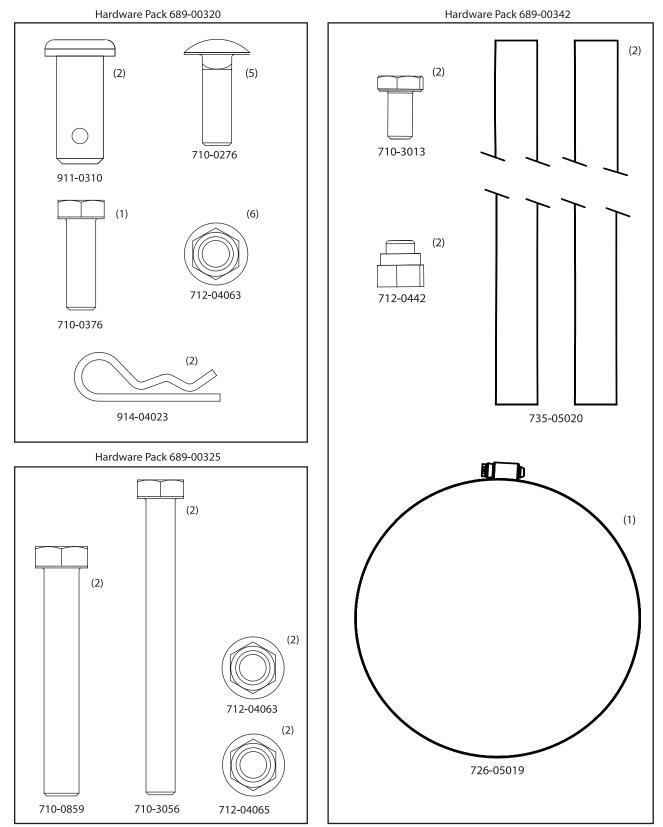

- Two Adhesive Foam Strips
- Grass Catcher Cover
- Chute Tube Extension
- Flexible Tube Extension
- Upper Chute Tube
- Two Grass Bag Assemblies
- Bag Support Assembly
- Hinge Cover Pin

- Upright Support
- Chute Discharge Bracket
- Hitch Bracket Kit (5 Pcs.: 2 side & 1 cross mount, 2 wt. mounts)
- Upper Chute Support
- Discharge Chute Elbow
- Weight Bar
- Mounting Bracket Kit (Not needed for this installation)
 - Four Hardware Packs (Detailed below and on the next page)

CONTENTS OF HARDWARE PACK

This grass collector kit is shipped with three loose hardware packs enclosed and one set of hardware packed with the upright mounting bracket. Please check your hardware packs against the illustrations below. The quantities for each item is listed in parenthesis.

Assembly & Installation

NOTE: References to left, right, front and rear of the tractor are from the operator's position, unless otherwise stated.

 Before assembly, place the tractor on a firm, level surface, disengage the PTO, stop the tractor engine and set the parking brake.

Assemble Mounting Brackets

To assemble the bagger mounting assembly, locate the mounting assembly parts, as shown in Figure 4-1, and follow these steps:

1. Attach the two hitch side brackets to the rear attachment bracket using four 710-0276 carriage bolts and 712-04063 flange lock nuts from hardware pack 689-00320. See Figure 4-1.

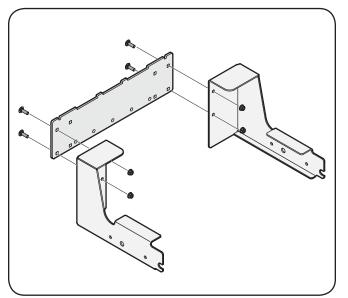

Figure 4-1

Note: When assembling this mounting assembly, it is best to not fully tighten the bracket at this time. This will facilitate the mounting process in later steps, which will then require fully tightening this mounting assembly.

Mount Assembly on Tractor

Install mounting assembly on tractor as follows:

1. Slide the mounting bracket assembly along the frame rails of the tractor until the hooks in the mounting brackets align under the shoulder bolts on your tractor, as seen in Figure 4-2.

Note: Remove rear tube bumper if equipped.

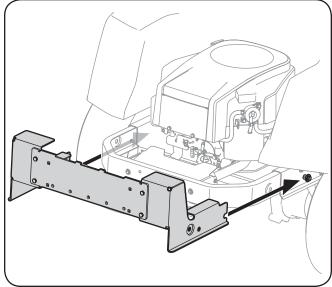

Figure 4-2

2. Secure the mounting bracket assembly to the tractor using two 911-0310 clevis pins and 914-04023 cotter pins from hardware pack 689-00320. See Figure 4-3.

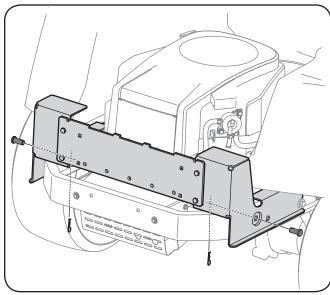

Figure 4-3

- 3. Tighten all of the hardware installed at this time.
- 4. Install the upright support bracket onto the mounting assembly on the tractor by hooking it over the mounting assembly as shown in Figure 4-4.

5. Secure the upright support bracket to the mounting assembly in the mounting hole available for the deck size this bagger is being installed on. See Figure 4-4 for the proper mounting location. Use a 710-0376 hex bolt and 712-04063 flange lock nut from hardware pack 689-00320.

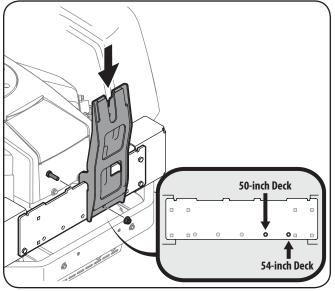

Figure 4-4

 Install and secure the hanger assembly onto the upright support bracket using a 710-0276 carriage bolt and 712-04063 flange lock nut from hardware pack 689-00320. See Figure 4-5.

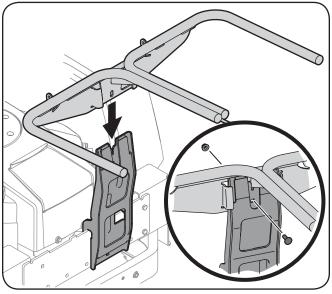

Figure 4-5

Note: The carriage bolt (710-0276), from hardware pack 689-00320, goes in the top hole with the nut facing the engine. The hex bolt (710-0376), from the same hardware pack, goes in the bottom hole.

7. Snap the plastic upper chute support in place by first clipping the side portion onto the bagger support rail (1) with the edge of the snap feature aligned with the line on the label, as shown in the inset of Figure 4-6.

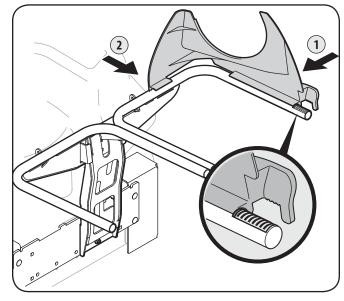

Figure 4-6

- 8. Snap the front side of the chute support to the rail (2), as shown in Figure 4-6.
- 9. If not already installed by the factory, install the bagger screen into the bagger cover by first inserting one end into the corresponding cutout mounting hole, as in Figure 4-7. Make sure to feed the screen under the lip, as in Figure 4-8.

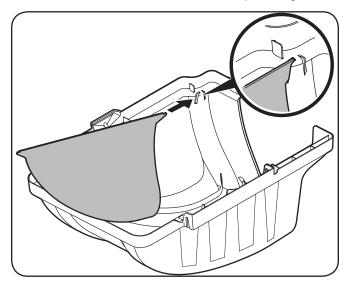

Figure 4-7

10. Clip in the other side of the screen by flexing the screen and pushing it down into the other corresponding cutout hole. See Figure 4-8.

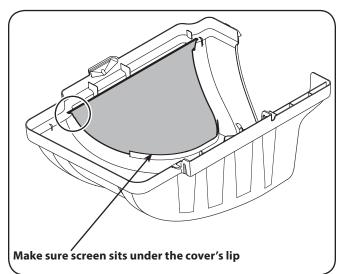

Figure 4-8

11. Install the bagger cover onto the bag support assembly, as seen in Figure 4-9. The plastic cover goes inside of the two mounting tabs.

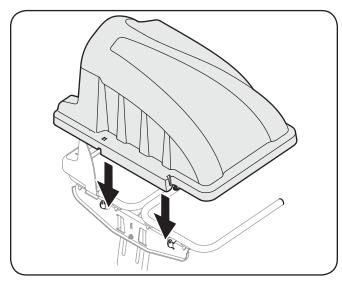

Figure 4-9

12. Slide the hinge pin into the hole located on the mounting tab, as in Figure 4-10. Use the cut-out window (See inset in Figure 4-10) to line up the hinge pin on the other side and push pin all the way in until it reaches the end-stop. At this point the pin clips into place and is secured by a tab in the bagger cover. See Figure 4-11.

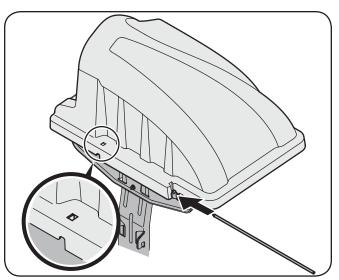

Figure 4-10

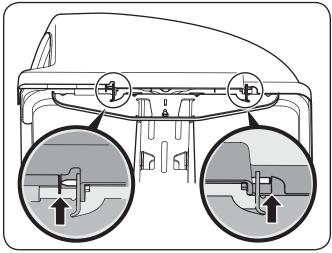

Figure 4-11

13. Open Hood by pushing in on the rear, right-side tab with your right hand, as seen in 1 of Figure 4-12, and lifting the cover with your left hand in the center rear of the bagger cover, 2.

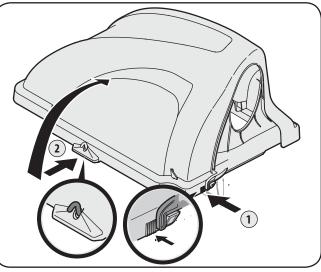

Figure 4-12

14. Install both bag assemblies onto the bag support brackets by inserting the front edge in first, as seen in 1 of Figure 4-13, and setting the back edge down until it fits into the assembly (2).

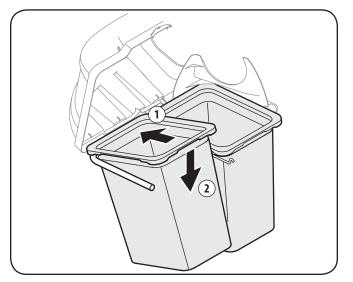

Figure 4-13

Assembling and Configuring the Discharge Chute

Before installing the discharge chute onto your tractor, some components must first be assembled onto the upper chute, chute extension and discharge chute elbow. The following instructions for assembling and configuring the discharge chute:

Peel the backing off of one of the narrow self-adhesive 1. foam strips that has been included with your grass collector. Apply it to the upper chute, flush against the flange as shown in Figure 4-14.

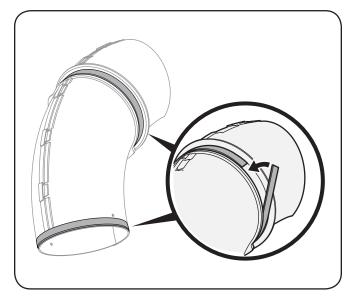

Figure 4-14

tube, flush against the edge as shown in Figure 4-14.

strip and apply it to the bottom edge of the upper chute

2.

Note: Be careful not to cover any holes on the upper chute tube when applying the self -adhesive foam strip.

3. Apply a wide adhesive rubber strip, included in hardware pack 689-00342, onto the chute extension tube, approximately 1.25 inches from the narrow end of the extension tube, which should be approximately a quarter inch above the bead on the narrow end of the extension tube, as shown in Figure 4-15.

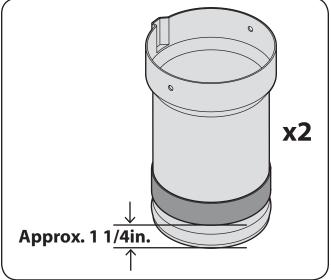

Figure 4-15

4. Install the upper chute tube into the wide end of the extension tube and secure the tubes together using two (710-3013) hex screws and 712-0442 cap lock nuts, included in hardware pack 689-00342. See Figure 4-16.

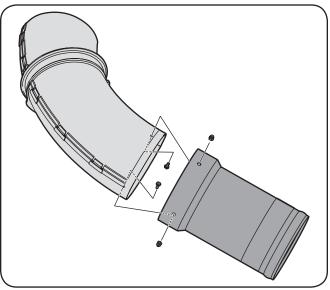

Figure 4-16

- 5. Install the upper chute and extension tube into the flexible Peel the backing off of the other narrow self-adhesive foam hose extension as shown in Figure 4-17, positioning it over the wide adhesive rubber strip previously installed on the extension tube.
 - SECTION 4 ASSEMBLY & INSTALLATION 11

6. Secure the flexible hose extension to the upper chute assembly using the (726-05019) hose clamp included in hardware pack 689-00342.

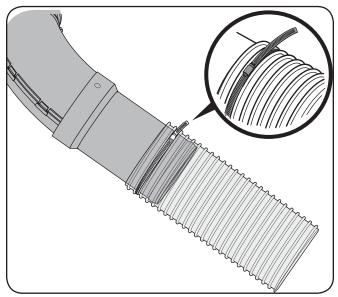

Figure 4-17

Note: Orientate the hose clamp so that it aligns over the wide adhesive rubber strip previously installed on the chute extension tube, and the excess from the clamp points inward and down with the tightening screw facing outward. See the inset of Figure 4-17.

Note: It is best to only snug-fit this clamp in this phase as you will be instructed to tighten it later once the discharge chute is installed on the tractor and adjusted.

7. Apply the other wide adhesive rubber strip, included in Hardware Pack 689-00342, onto the upper end of the discharge chute elbow. Place the adhesive strip up against the ridge in the upper portion of the discharge chute elbow, as detailed in the inset of Figure 4-18.

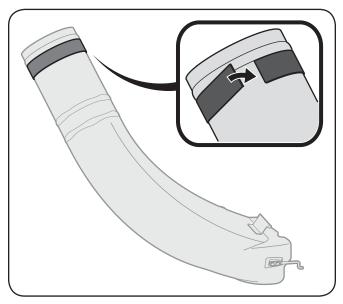

Figure 4-18

Installing the Discharge Chute

When installing the discharge chute, two different installation instructions exist. For the 54" Fabricated deck units, the discharge chute elbow mounts directly onto the cutting deck. For the 50" and 54" stamped decks, an adapter must first be installed. Be sure to follow the instructions that pertain to the unit you are installing this bagger on.

54" Fabricated Deck Units:

- 1. Raise the deck to its highest position.
- 2. Raise the chute deflector (1 in Figure 4-19) on the deck and hold it while you position the discharge chute over the chute opening.

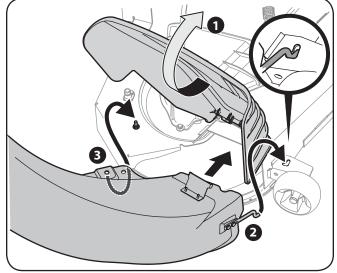

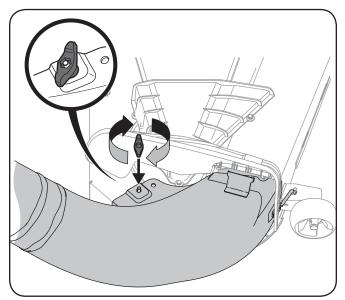

Figure 4-19

- 3. Insert the end of the discharge chute elbow (2) into the hole provided in the deck wheel mount as shown in the inset of Figure 4-19.
- Pivot the discharge chute rearward until the hole in the discharge chute elbow aligns with the pin on the deck. Move the discharge elbow down onto that pin as shown in 3 of Figure 4-19.

 Secure the discharge chute elbow to the cutting deck using a (720-04122) wing knob included with the bagger kit. Refer to Figure 4-20.

On 50" and 54" Stamped Decks:

- 1. Raise the deck to its highest position.
- 2. Remove the deck pin rubber protective cap, 1 in Figure 4-21.
- 3. Raise the chute deflector (2 in Figure 4-21) on the deck and hold it while you install the (731-10133) chute adapter(3), included in hardware pack 689-00341, onto the deck as shown in Figure 4-21.

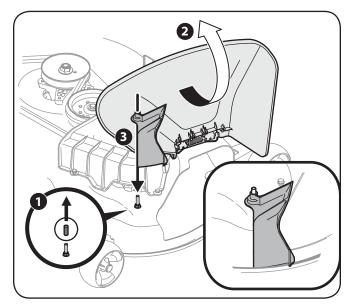

Figure 4-21

4. Insert the end of the discharge chute elbow (1) into the hole provided in the deck wheel mount as shown in the inset of Figure 4-22.

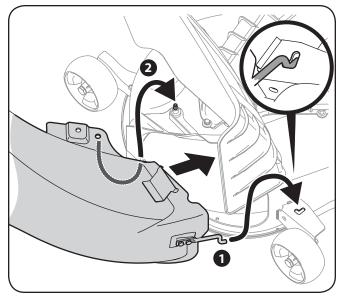

Figure 4-22

- 5. Pivot the discharge chute rearward until the hole in the discharge chute elbow aligns with the pin on the deck adapter. Move the discharge elbow down onto that pin as shown in 2 of Figure 4-22.
- 6. Secure the discharge chute elbow to the cutting deck using a (720-04122) wing knob included in hardware pack 689-00341. Refer to Figure 4-23.

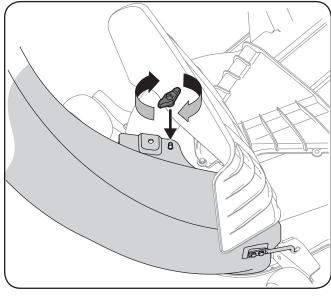

Figure 4-23

7. Install the upper chute tube onto the discharge chute elbow as shown in Figure 4-24.

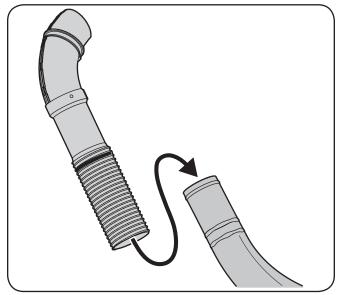

Figure 4-24

8. With the bagger cover open, pivot the upper chute tube into position so that the chute rests in the upper chute support. See Figure 4-25.

Note: Make sure to align the upper chute with the ridges on the upper chute support.

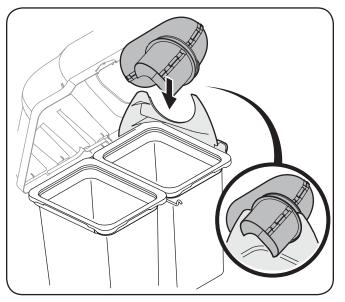

Figure 4-25

9. Close the grass catcher cover.

10. With the chute installed in its proper orientation and the deck set in the lowest cutting position, tighten the hose clamp on the flexible tube extension, making sure the clamp is still positioned over the wide rubber adhesive strip.

Install The Counter Weight

The front weight kit is designed for use with all RZT-L (Lap Bar) Residential Zero-turn models. The front weight kit is **NOT** designed nor required for use with all RZT-S (Steering Wheel) Residential Zero-turn models.

WARNING: This front-weight kit is required when operating any compatible lap bar RZT-L models equipped with a grass collector. Failure to install this kit may result in serious injury or death.

WARNING: Before beginning installation, place the RZT-L on a firm and level surface, set the parking brake, place the PTO in the disengaged (OFF) position, stop the motor and remove the ignition key to prevent unintended starting.

Note: The front weight kit is not utilized on the RZT-S (Steering Wheel) Residential Zero Turn units. Do not attempt to mount it on RZT-S models, as it will not fit.

RZT models are available with two different front-end styles. Identify your RZT using the images in the following instructions and follow the applicable steps.

1. Attach the left mounting bracket and the right mounting bracket to the weight bar using two 2½-inch screws (710-0859), and ¾" flange nuts (712-04065) from hardware pack 689-00325. See Figure 4-26.

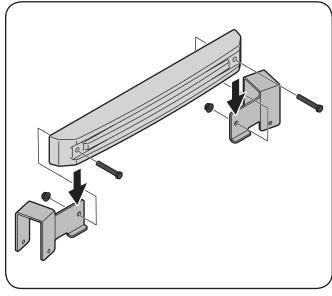

Figure 4-26

2. Attach the weight bar assembly to the front axle with a 3 1/4-inch (710-3056) screw and (712-04063) flange nut from hardware pack 689-00325 on the left side. Repeat on the right side. Do not fully tighten at this time. See Figure 4-27.

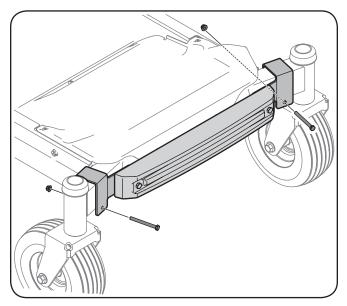

Figure 4-27

3. Visually center the weight bar assembly on the tractor and tighten the hardware installed in step 2 to secure the brackets to the front axle.

Operation

Bagger Usage

NOTE: When both grass bags are full, place the tractor on a firm, level surface, disengage the PTO, turn the tractor engine off and set the parking brake.

 Open the grass catcher hood by pushing in on the rear, right-side tab with your right hand, as seen in 1 of Figure 5-1, and lifting the cover with your left hand in the center rear of the bagger cover, 2.

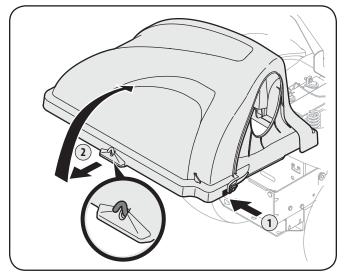

Figure 5-1

- 2. Do not remove the chute tube assembly from the tractor.
- 3. Remove the grass bags by lifting these up (1) and moving the bags away from the bag support assembly (2). See Figure 5-2.

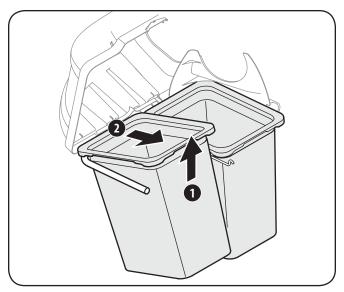

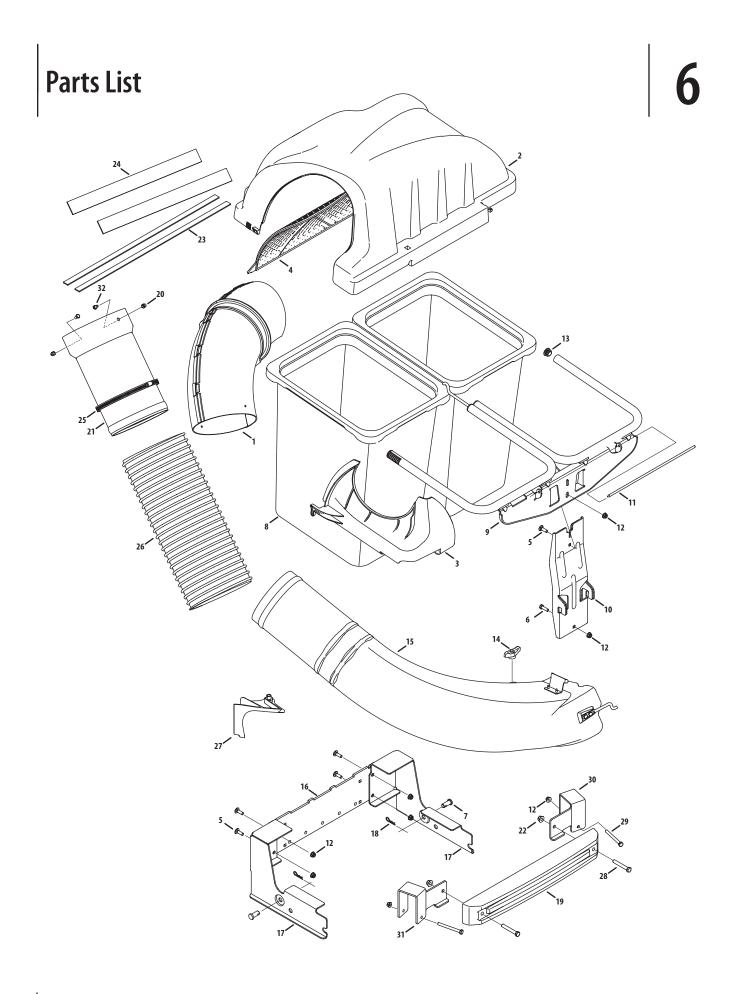

Figure 5-2

- 4. Empty the grass clippings at a proper disposal site, use the handle at the bottom of each grass bag. Holding the bag firmly, empty the contents
- 5. Replace grass bags, close lid, flip down seat, restart your tractor, release parking brake and resume cutting your grass.

This page intentionally left blank.

19A700430EM Parts List

Ref.	Part Number	Description
1.	931-05071	Upper Chute Assembly
2.	931-04292	Twin Bagger Cover
3.	731-06497	Upper Chute Support
4.	731-06504	Bagger Cover Screen
5.	710-0276	Carriage Screw, 5/16-18 x 1.00"
6.	710-0376	Hex Head Screw, 5/16-18 x .75"
7.	911-0310	Clevis Pin, .50″ Dia. x .78 Lg.
8.	964-04096A	Grass-bag Assembly
9.	683-04461A-0637	Twin Bag Support Assembly
10.	683-04519A-0637	Vertical Support Bracket
11.	711-04988	Cover Hinge Pin
12.	712-04063	Flange Lock Nut, 5/16-18
13.	735-0246A	End Plug
14.	720-04122	Wing Knob
15.	631-05103	Discharge Chute Elbow
16.	783-06168-0637	Universal Mounting Bracket
17.	689-00204A	RZT Mounting Assembly (Incl. Ref No. 16, 17, 30 & 31)
18.	914-04023	Cotter Pin, .080 x 1.5625 Internal
19.	719-04271A	RZT Bagger Weight
20.	710-3013	Hex Screw, 1/4-20 x .50
21.	731-06611	Bagger Chute Adapter, 7 In.
22.	712-04065	Flange Lock Nut, 3/8 - 16
23.	721-04388	Adhesive Strip
24.	735-05020	Wide Adhesive Rubber Strip
25.	726-05019	Adj. Hose Clamp
26.	764-05023	Flexible Chute Extension
27.	731-10133	Adapter 50"/54" (Stamped Decks)
28.	710-0859*	Hex Bolt, 3/8 - 16 x 2.50
29.	710-3056*	Hex Bolt, 5/16 - 18 x 2.50
30.	703-09197-0637*	Weight Mounting Bracket, LH
31.	703-09193-0637*	Weight Mounting Bracket, RH
32.	912-0442	Cap Lock Nut, 1/4-20

* RZT-L Models Only!

MANUFACTURER'S LIMITED WARRANTY FOR

The limited warranty set forth below is given by MTD LLC with respect to new merchandise purchased and used in the United States and/or its territories and possessions, and by MTD Products Limited with respect to new merchandise purchased and used in Canada and/or its territories and possessions (either entity respectively, "MTD").

"MTD" warrants this product (excluding its *Normal Wear Parts* and *Attachments* as described below) against defects in material and workmanship for a period of one (1) year commencing on the date of original purchase and will, at its option, repair or replace, free of charge, any part found to be defective in materials or workmanship. This limited warranty shall only apply if this product has been operated and maintained in accordance with the Operator's Manual furnished with the product, and has not been subject to misuse, abuse, commercial use, neglect, accident, improper maintenance, alteration, vandalism, theft, fire, water, or damage because of other peril or natural disaster. Damage resulting from the installation or use of any part, accessory or attachment not approved by MTD for use with the product(s) covered by this manual will void your warranty as to any resulting damage.

Normal Wear Parts are warranted to be free from defects in material and workmanship for a period of thirty (30) days from the date of purchase. Normal wear parts include, but are not limited to items such as: batteries, belts, blades, blade adapters, tines, grass bags, wheels, rider deck wheels, seats, snow thrower skid shoes, friction wheels, shave plates, auger spiral rubber and tires.

Attachments — MTD warrants attachments for this product against defects in material and workmanship for a period of one (1) year, commencing on the date of the attachment's original purchase or lease. Attachments include, but are not limited to items such as: grass collectors and mulch kits.

HOW TO OBTAIN SERVICE: Warranty service is available, WITH PROOF OF PURCHASE, through your local authorized service dealer. To locate the dealer in your area:

In the U.S.A.

Check your Yellow Pages, or contact MTD LLC at P.O. Box 361131, Cleveland, Ohio 44136-0019, or call 1-800-800-7310, 1-330-220-4683 or log on to our Web site at www.mtdproducts.com.

In Canada

Contact MTD Products Limited, Kitchener, ON N2G 4J1, or call 1-800-668-1238 or log on to our Web site at www.mtdcanada.com.

This limited warranty does **not** provide coverage in the following cases:

a. Log splitter pumps, valves, and cylinders have a separate one- year warranty.

- b. Routine maintenance items such as lubricants, filters, blade sharpening, tune-ups, brake adjustments, clutch adjustments, deck adjustments, and normal deterioration of the exterior finish due to use or exposure.
- c. Service completed by someone other than an authorized service dealer.
- d. MTD does not extend any warranty for products sold or exported outside of the United States and/or Canada, and their respective possessions and territories, except those sold through MTD's authorized channels of export distribution.
- e. Replacement parts that are not genuine MTD parts.
- f. Transportation charges and service calls.
- g. MTD does not warrant this product for commercial use.

No implied warranty, including any implied warranty of merchantability or fitness for a particular purpose, applies after the applicable period of express written warranty above as to the parts as identified. No other express warranty, whether written or oral, except as mentioned above, given by any person or entity, including a dealer or retailer, with respect to any product, shall bind MTD. During the period of the warranty, the exclusive remedy is repair or replacement of the product as set forth above.

The provisions as set forth in this warranty provide the sole and exclusive remedy arising from the sale. MTD shall not be liable for incidental or consequential loss or damage including, without limitation, expenses incurred for substitute or replacement lawn care services or for rental expenses to temporarily replace a warranted product.

Some states do not allow the exclusion or limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, so the above exclusions or limitations may not apply to you.

In no event shall recovery of any kind be greater than the amount of the purchase price of the product sold. **Alteration of safety features of the product shall void this warranty.** You assume the risk and liability for loss, damage, or injury to you and your property and/or to others and their property arising out of the misuse or inability to use the product.

This limited warranty shall not extend to anyone other than the original purchaser or to the person for whom it was purchased as a gift.

HOW STATE LAW RELATES TO THIS WARRANTY: This limited warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

IMPORTANT: Owner may be required to present proof of purchase to obtain warranty coverage.

MTD LLC, P.O. BOX 361131 CLEVELAND, OHIO 44136-0019; Phone: 1-800-800-7310, 1-330-220-4683 MTD Canada Limited - KITCHENER, ON N2G 4J1; Phone 1-800-668-1238
